Comments Report

1. General Observations

1.10) Please highlight any specific examples of excellent teaching on this module.

- -

- Amrit and Yannis are excellent at explaining what the material is explaining

- Amrit gave a lot of mathematical examples which I really appreciate as I like to understand on both graphical and mathematical sides.

- I believe Amrit taught the module very well and made every week interesting. Yannis also made seminars engaging and feedback was always detailed and helpful.

- Lectures interesting

- Mathematical examples behind theory.

- Seminar leader explains things clearly and encourages us to understand formulas as opposed to just writing them down

- Seminars are very clear and my leader makes sure everything is explained in depth

- Using examples in lectures is helpful and real world examples

- Very interactive and engaging seminars.

- Yannis

- Yannis' seminars are excellent
  Engaging with good explanations

  Amrit makes lectures relevant

- Yannis. Such a legend. There was one lecture that Amrit explained particularly well.

- my seminar leader has been a great help with his explanation

1.11) What improvements could be made to this module in the areas highlighted above?

- -

- After isolating theory and maths, employ an approach that joins both together.

- He very rarely finishes a lecture on time and we always spill over onto the next lecture which takes up time.

- I do not agree with the module policy of not providing feedback on exam questions prior to the exam. I believe that feedback is crucial to becoming better and it may explain why the mark distribution is quite low for Micro.

- ICT test week 7 felt too early to process all information learnt

- In seminars have enough time to go through all questions in detail.

  UPDATE MOST RECENT LECTURE SLIDES ON MOODLE BEFORE THE LECTURE STARTS

- Make the ICTs have higher weightings.

- Many of us feel as if the ICT assessments being 4% is not proving to be a good reflection of our potential in this module. The timing for the assesments didn't seem to be enough either. The lecturer was not able to go into depth with the content.

- To many in class tests that are barely worth anything, instead I suggest that we should have had a take home assignment.

2. Additional Questions about this module

2.2) Do you have any feedback regarding your seminar leader(s)?

- -

- Been a good seminar leader and explains questions well

- Engaging seminars could create a straw poll and vote on which questions to go through

- Excellent seminars
  I have looked forward to them each week

- Explains everything in great details but doesnt have enough time to go through all the questions

- Goes through answers, asking as we go through that everyone is understanding. He doesn't move on unless we all understand.

- Great at explaining and goes through seminar work step by step

- Great seminar leader

- Great seminar leader, clear explanations and very helpful and patient

- He has explained everything really well and is happy to take his time explaining topics which I struggle to understand. He also makes seminars very enjoyable.

- He is a great seminar leader, probably the best at teaching. He explains very well and structures his explanations well. Very good teacher.

- He's a legend. The best seminar leader I've ever had! He explains things well, possibly too slowly, but make sure everyone understands. He tries to get people to answer questions too, which is good as other people have been answering questions.

  He gives sweets to the team that wins the ISQ which creates competition and has made the seminar really fun. Best hour of the week!! Genuinely! Absolute legend.

- I understand the content once explained by him usually

- Makes them very clear and informative yet enjoyable at the same time

- Nope , he was a great seminar leader

- Really enthusiastic and makes a class at 9am more enjoyable and engaged.
  Very helpful - makes everything clear and goes over things again if needed

- Really fun seminars and are explained thoroughly and succinctly.

- Really good, explains things clearly, super helpful

- Very good

- Very good at explaining and will help you understand where you go wrong when giving answers.

- Very good at explaining everything

- Very good seminar leader

- Very good teacher

- Very helpful and very engaged in the class. Always keen to help

- Yannis is an excellent seminar leader and I have no queries about him.

2.10) Do you have any additional comments to make regarding this module?

- -

- It's a great module and I'm really liking it.

- Upload slides prior the actual lecture for students to get some grounding prior.

- n/a
